

# Craigavon GP Federation Is IJD or FMS?

7 October 2025

**98%**  
of attendees would  
recommend this  
event/training

Average %  
improvement  
= 91%

I have gained knowledge  
to help educate patients  
with chronic pain.

Less opiate use in  
fibromyalgia.

More aware of suitable  
signposting.

Responses to: How will this  
training benefit your  
patients?

Of the delegates who completed the evaluation survey, 96% said the learning aims were met and 99% rated the presenter excellent or very good.

**Next steps are to identify which of our training courses would best meet your needs and secure a future date.**
